

Temporary Facility Evacuation Assurance

Due to the vulnerability of temporary classroom units to damage and destruction in high winds and other severe weather conditions, the following must be met as a requirement for approval to use said units:

1. Temporary (relocatable) classroom units shall be evacuated during times when a tornado watch or a warning of a high winds is in effect.
2. An educational program within the permanent school facility shall be provided for those students evacuated from the temporary classroom units. Each attendance center affected shall have a planned program for those evacuated and have made prior plans to accommodate such students in an educational setting. A copy of said plan shall be on file in the principal's office and with each teacher affected.

Note: This may require rescheduling of classes within the permanent facility so that an educational program for all students at the attendance center will continue during the watch or high wind conditions.

3. All students shall follow established procedures during a tornado warning to help insure the safety of everyone at the attendance center under warning conditions indicating danger is imminent.

This form, duly executed, shall be filed with the Application for Approval of Usage of Temporary Facility and is considered a part of the application. It shall be signed by the district superintendent and the building principal as indicated below:
